

SCSI/Fibre Channel - Passive External SCSI Terminator C50Male/Female Feed-Thru

MODEL NUMBER: S118-000

Highlights

- Active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter

System Requirements

- Any external use on a SCSI chain where a Cen50 Male terminator is required

Package Includes

- Passive External SCSI Terminator C50Male/Female Feed-Thru

Description

Tripp Lite's feed-thru C50 passive terminator is the one for all of your external SCSI II applications. Used with SCSI devices which have a C50 female port. Tripp Lite's passive terminators provide the clearest data signal maximizing signal integrity. Supports fast and Ultra single ended devices at 10 or 20 Mbps. Passive terminators do not have a voltage regulator circuit to compensate for fluctuations in the host adapter. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- Passive terminators do not have a voltage regulator circuit to compensate for fluctuations in the host adapter
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life

Specifications
