

To our customers,

Old Company Name in Catalogs and Other Documents

On April 1st, 2010, NEC Electronics Corporation merged with Renesas Technology Corporation, and Renesas Electronics Corporation took over all the business of both companies. Therefore, although the old company name remains in this document, it is a valid Renesas Electronics document. We appreciate your understanding.

Notice

1. All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
2. Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
7. Renesas Electronics products are classified according to the following three quality grades: "Standard", "High Quality", and "Specific". The recommended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below. You must check the quality grade of each Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as "Specific" without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product for any application for which it is not intended without the prior written consent of Renesas Electronics. Renesas Electronics shall not be in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as "Specific" or for which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is "Standard" unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
 - "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; and industrial robots.
 - "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
 - "Specific": Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations, or healthcare intervention (e.g. excision, etc.), and any other applications or purposes that pose a direct threat to human life.
8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.

(Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.

(Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.

M61540FP

6ch Electronic Volume with 5 Input Selector

REJ03F0117-0100Z

Rev.1.0

May.31.2004

Description

M61540FP is an audio signal processor for home audio. This IC contains 6 channel electronic volume, gain control, input selector and 2 band tone control.

Features

- Electric Volume 6 channel independent Electronic Volume with High Voltage Transistor.
(0 to -99dB/1dBstep, -∞dB)
- Gain Control 6 channel independent Gain Control (0, 6, 12, 18dB)
- Input Selector L/R channel 5 Input Selector
- Multi Channel Input 6 channel Input
- Tone Control Bass: -14 to + 14dB(2dB step),
Treble: -14 to + 14dB(2dB step)
- REC Output Can use 2 Input for REC Output
- ADC Out Built-in ADC out

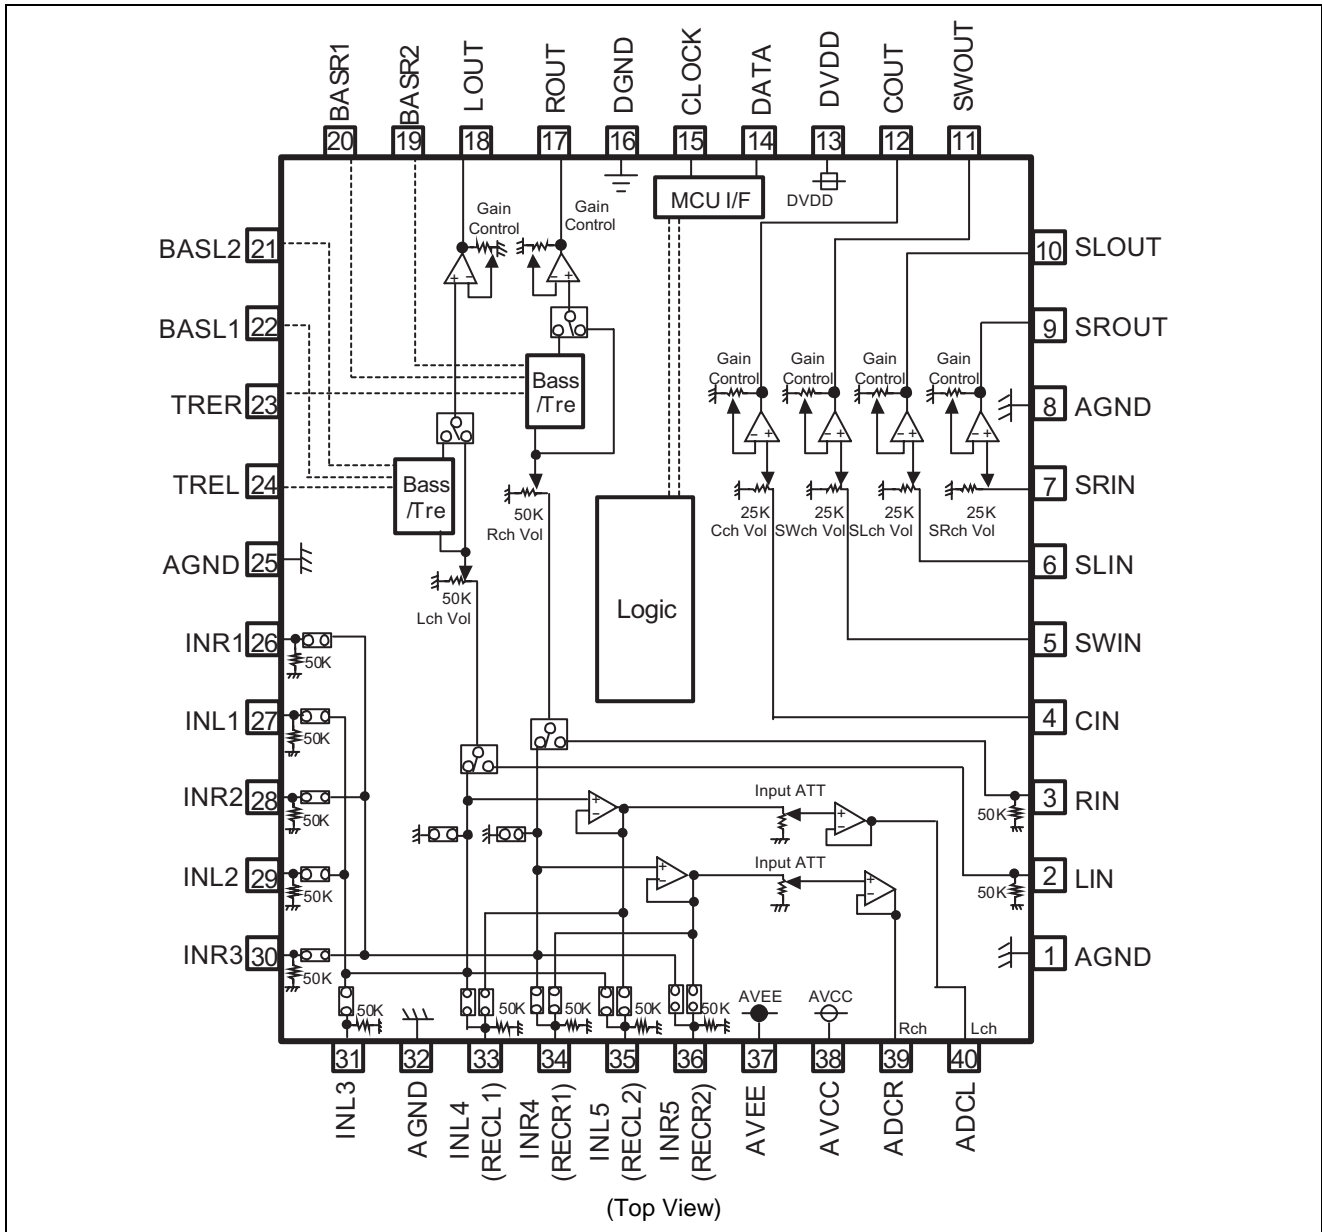

Recommended Operating Condition

Supply Voltage Range AVCC = 7.0V(typ), AVEE = -7.0V(typ), DVDD = 3.0 to 5.5V

Block Diagram and Pin Configuration

Pin Description

Pin No.	Name	Function
1, 8, 25, 32	AGND	Analog Ground
2	LIN	Input pin of L channel (Multi)
3	RIN	Input pin of R channel (Multi)
4	CIN	Input pin of C channel (Multi)
5	SWIN	Input pin of SW channel (Multi)
6	SLIN	Input pin of SL channel (Multi)
7	SRIN	Input pin of SR channel (Multi)
9	SROUT	Output pin of SR channel
10	SLOUT	Output pin of SL channel
11	SWOUT	Output pin of SW channel
12	COUT	Output pin of C channel
13	DVDD	Power supply to internal logic circuit
14	DATA	Input pin of control data
15	CLOCK	Input pin of control clock
16	DGND	Ground of internal logic circuit
17	ROUT	Output pin of R channel
18	LOUT	Output pin of L channel
19, 20	BASR1, BASR2	Frequency characteristic setting pin of R channel tone control (BASS)
21, 22	BASL1, BASL2	Frequency characteristic setting pin of L channel tone control (BASS)
23	TRER	Frequency characteristic setting pin of R channel tone control (Treble)
24	TREL	Frequency characteristic setting pin of L channel tone control (Treble)
26, 28, 30	INR1, 2, 3	Input pin of R channel (Input Selector)
27, 29, 31	INL1, 2, 3	Input pin of L channel (Input Selector)
33, 35	INL4, 5/ RECL1, 2	Input pin of L channel (Input Selector) can use REC output pin
34, 36	INR4, 5/ RECR1, 2	Input pin of R channel (Input Selector) can use REC output pin
37	AVEE	Negative power supply to internal analog circuit
38	AVCC	Positive power supply to internal analog circuit
39, 40	ADCR, ADCL	Output pin for ADC

Power on Reset

This IC built-in the power on reset function.

The voltage of DVDD (13 pin) -DGND (16 pin) less than 2.6V, the serial DATA can not accept.

Data Control Specification

Initialize all data of the 4 formats when Digital Power supply (DVDD) turns on.

(3) 6 channel Volume characteristics

Parameter	Symbol	Limits			Unit	Test condition
		Min	Typ	Max		
Maximum attenuation	ATTmax	—	-100	-95	dB	Vi = 2Vrms, JIS-A, VOL = - ∞ dB
Volume gain gang error of mutual channels	Dvol	-0.5	0	+0.5	dB	Volume = 0dB

(4) Tone control characteristics

Unless otherwise noted, Tone ON/OFF = ON

Parameter	Symbol	Limits			Unit	Test condition
		Min	Typ	Max		
Tone control voltage gain (Boost/Bass)	G (BASS) B	+12	+14	+16	dB	f = 100Hz Bass +14dB setting
Tone control voltage gain (Cut/Bass)	G (BASS) C	-16	-14	-12	dB	f = 100Hz Bass -14dB setting
Tone control voltage gain (Boost/Treble)	G (TRE) B	+12	+14	+16	dB	f = 10kHz Treble +14dB setting
Tone control voltage gain (Cut/Treble)	G (TRE) C	-16	-14	-12	dB	f = 10kHz Treble -10dB setting
Balance of mutual channels	BALT	-2	0	+2	dB	Bass setting +14, -14dB Treble setting +14, -14dB

Keep safety first in your circuit designs!

1. Renesas Technology Corp. puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage. Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of nonflammable material or (iii) prevention against any malfunction or mishap.

Notes regarding these materials

1. These materials are intended as a reference to assist our customers in the selection of the Renesas Technology Corp. product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Renesas Technology Corp. or a third party.
 2. Renesas Technology Corp. assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.
 3. All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Renesas Technology Corp. without notice due to product improvements or other reasons. It is therefore recommended that customers contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor for the latest product information before purchasing a product listed herein.
The information described here may contain technical inaccuracies or typographical errors.
Renesas Technology Corp. assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.
Please also pay attention to information published by Renesas Technology Corp. by various means, including the Renesas Technology Corp. Semiconductor home page (<http://www.renesas.com>).
 4. When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Renesas Technology Corp. assumes no responsibility for any damage, liability or other loss resulting from the information contained herein.
 5. Renesas Technology Corp. semiconductors are not designed or manufactured for use in a device or system that is used under circumstances in which human life is potentially at stake. Please contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor when considering the use of a product contained herein for any specific purposes, such as apparatus or systems for transportation, vehicular, medical, aerospace, nuclear, or undersea repeater use.
 6. The prior written approval of Renesas Technology Corp. is necessary to reprint or reproduce in whole or in part these materials.
 7. If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.
Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.
 8. Please contact Renesas Technology Corp. for further details on these materials or the products contained therein.
